

EFK Announces New Courseware for Teens

Same High Quality FREE courseware as EFK

December 1, 2010 (Online Educa Berlin, Germany) The e-Learning for Kids Foundation (EFK, <http://www.e-learningforkids.org>), a global 501(c)(3) non-profit foundation that provides free computer based learning courses for children 5-12, is happy to formally announce the release of new courses for teenagers and older students: e-Learning for Life (EFL, <http://e-learningforkids.org/ELF/index.html>). e-Learning for Life is a branch foundation of e-Learning for Kids and will primarily focus on courses for computing, career/life skills, and learning / innovation skills. e-Learning for Life course offerings span from developing skills for searching the Internet and learning Microsoft Office 2007 to an environmental skills course about Global Warming. Microsoft Office 2007 is often installed on computers, but typically without instructions for teens on how to perform the basics -- Word, Excel, PowerPoint and Outlook. e-Learning for Life would like to fill this void.

Nick van Dam, Founder and Chairman of the EFK foundation, had the vision to create this new foundation to complement the core K-6 curriculum of e-Learning for Kids. "It is so important in today's global environment that children to learn the basics of education and can then continue to learn on an ongoing basis as they get older. We are happy to be able to expand our basic skills curriculum with these first set of courses at e-Learning for Life. We will continue to expand the offerings but these first set of courses will bring computing literacy to teenagers all over the world – a requirement for future success – by developing skills in search, interpersonal communications skills, and the presentation of ideas" said Nick.

About e-Learning for Kids

e-Learning for Kids is a global 501(c)(3) non-profit organization that is dedicated to opening doors to education worldwide. Established in 2004, e-Learning for Kids is dedicated to fun and FREE learning on the Internet (or via CD ROM) for children aged 5-12 with over 200 best-in-class courses in math, science, language arts, computers, English as a second language, health and life skills. The courseware is also available in Spanish, French, Portuguese and in Indian English. In 2010, more than 2 million children benefitted from one or more EFK courses. A large volunteer staff consists of education and e-Learning experts and business professionals from around the world committed to making a difference. We are actively seeking funding, sponsors and courseware developers. Get involved! Contact: info@e-learningforkids.org or +1 888 399 3138.
